## Publish your results in *Optica Pura y Aplicada*

### III International Conference on Applications of Optics and Photonics -AOP

Faro, Portugal  
May 8-12, 2017

The journal **Optica Pura y Aplicada - OPA**, edited by the **Spanish Optical Society - SEDOPTICA**, aims to stimulate and promote the development of Optics & Photonics, by publishing articles in the related field, describing new scientific research, new educational tools, novel industrial and technological developments and even innovative lab procedures and techniques.

OPA Editorial Committee would like to invite all participants at the **III International Conference on Applications of Optics and Photonics -AOP**, to be held in Faro (Portugal) in May 2017, to consider publishing in OPA articles related to the communications presented in the conference.

These articles will allow extending and completing the conference proceedings, and include new aspects related to the interactions and comments received during the meeting. Papers in OPA can be written **either in English or in Spanish**. All manuscripts will pass through the standard journal peer review process. Please refer to the page <http://goo.gl/BOUho5> for additional information about submission procedures, copyright, etc.

OPA is included in international data bases like **Scopus, Inspec, DOAJ**, and **Latindex**, and it appears indexed in numerical indices **Scimago Journal Rank** (SJR2015=0,153).

Wishing this initiative is of interest to the participants, we are looking forward to meeting you in Faro next may.

David Mas  
OPA Editor
