

Dear friends:

As in the previous edition, we would like to offer the services of Optica Pura y Aplicada for publishing your research presented in the **IV International Conference on Applications of Optics and Photonics**.

Optica Pura y Aplicada is a peer-reviewed journal published by the Spanish Optical Society. Along the last 50 years we have been supporting the Iberoamerican optics community by publishing their research, reviews, preliminary results or lab experiences.

We are strong supporters of the free Open Access Policy. All the manuscript are published under the Creative Commons License CC BY-NC-ND 4.0. Therefore, the authors retain all rights of their work and may freely distribute their publication. Additionally, there readers are free to download and distribute the work provided that it is conveniently acknowledged and cited.

Publishing in Optica Pura y Aplicada is subjected to a small fee of 50 eur, that is reduced to 25 eur to all members of the Portuguese Optical Society or members of the Iberoamerican Optical Societies affiliated to RIAO. Accepted and published manuscripts are tagged with a unique DOI number that allows easy access to the final paper. The manuscripts are listed in the main databases, like Scopus and the Web of Science.

We invite all the attendants to AOP 2019 to send their manuscripts to our journal before the end of June of 2019. Publishing of the manuscripts is scheduled for March, 2020. Please find the authors' instructions and templates at:

http://www.sedoptica.es/Menu_Volumenes/autores.php

Enjoy your time in Lisbon:

David Mas
